

Light travels around the world and brings PEACE and HEALING to us

This meditation was given to us from higher powers February 2016

The words *PEACE– FREEDOM – LOVE – HEALING* travel around the world like a neon sign, letters radiating energy all around us and the whole world.

In the beginning a shining path goes around the world in spirals from North Pole to South Pole. At the South Pole the shining letters flow into the earth and straight up through the middle of the earth to the North Pole, where the letters change into “FREEDOM”, which go around the earth in exactly the same way. The next time they pass the North Pole, they turn into “LOVE” and for the last turn into “HEALING” (for mother earth, all animals and all human beings).

It is essential, that the letters turn right, which means clockwise.

You don't have to go into deep meditation to program this hologram, but at least an alpha-state is helpful. The stronger your mental force, the more coherent your brain waves, the better and more intense the impact.

Experienced practitioners build this Hologram in the morning, let it move and click “endless loop”. Throughout the day you can reinforce the Hologram through your mental force.

Once this field is built by many people at the same time all around the earth, it is a very powerful tool to improve Peace, Freedom, Love and Healing for the planet and our common future.

Let us do it together and achieve Peace, Freedom, Love and Healing for all human beings! SO BE IT.
